ABOUT SHOE SIZING

This Guide is designed to help you out if you don't know your shoe size. If you are looking for help with converting from UK shoe sizes, go to the sizing page on our website, where you can find a wealth of information on fitting and shoe sizing.

The shoes on our website are listed in either European or USA sizing. In Australia, we use predominantly USA sizing - if you walked into a store and saw a size 9 shoe, it would be a USA size 9.

At Bstore, we understand that feet are three dimensional, that every pair of feet are unique, and that each shoe style can have slight variances in size. Because of this, we have an incredibly flexible return policy. To find out more, go to the 'Exchanges' section on the Bstore website.

For information about MBT sizing, please carefully read the notes 'Sizing' on the Bstore website.

!IMPORTANT

To make sure this sizing guide is printed at the correct scale, please make sure that in the printer window that you set 'PAGE SCALING' to 'NONE'.

To check that the printed result is correct, use a ruler to make sure the line above is precisely 3cm long.

This guide is designed to be printed on two A4 pages. Cut or fold one of the pages so that the dotted lines line up precisely together.
